

Web Application Development

Lab 1 – Exercise 1

Huỳnh Ngọc Bảo Long – ITITWE23023

Project: Single-page CV webpage using HTML

Checklist:

- **Semantically correct HTML structure**
 - Semantic HTML means using HTML tags that convey meaning about the content (<header>, <section>, <article>, <footer>, etc.) instead of just using <div> for everything.
 - Helps make webpage easier to read, accessible to screen readers and understandable by search engines → Improve SEO and structure
 - Used in all modern web pages.
 - <header> and <section> tags used in code to ensure semantically correct HTML structure:

```
23 <body style="font-family: Arial, sans-serif; margin: 40px; border: 3px solid black; padding: 30px; max-widt
24
25 <hr style="border: none; border-top: 3px solid black; margin-bottom: 20px;">
26
27 <header>
28   <h1 style="margin-bottom: 5px;">Huỳnh Ngọc Bao Long</h1>
29   <p style="color: green; font-weight: bold; margin-top: 0;">Junior Frontend Developer</p>
30 </header>
31
32 <p>
33   59 Dang Van Tron Street
34   Bien Hoa City, Dong Nai
35   (+84) 886 194 957
36   ITITWE23023@student.hcmiu.edu.vn
37 </p>
38
39 <section id="skills">
40   <h3 style="color: green;">Skills</h3>
41   <p>HTML, CSS, JavaScript, Accessibility, Figma to Design, Responsive Web Design, Technical Writing, P
42 </section>
43
44 <section id="education">
45   <h3 style="color: green;">Education</h3>
46   <p>
47     <span style="color: blue; font-weight: bold;">International University - HCM National Universit
48     September 2023 to September 2029<br>
```

- **Single-page layout with sections for education, skills, and career history**
 - A single-page layout means that the entire CV is contained in only one HTML page without navigations (<nav> tags) to separate pages.
 - Keeps information concise and accessible, good for a resume where information is viewed all at once

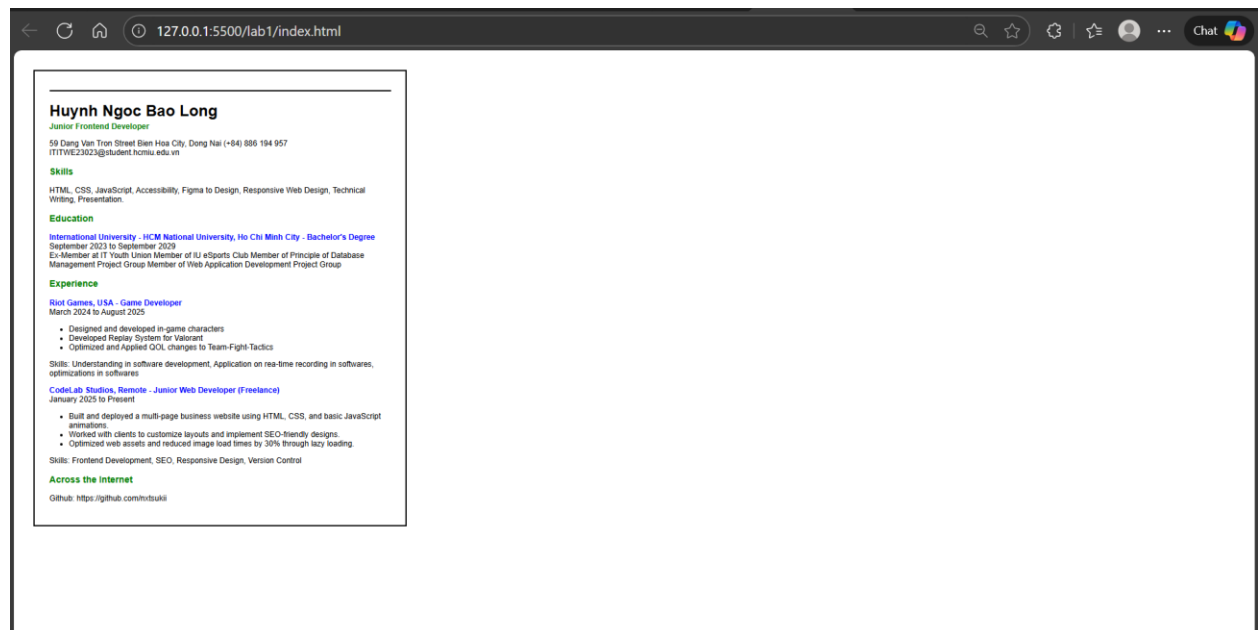

- Used for personal portfolio, CV, and landing pages that does not require multiple pages or navigations
- Each major part of the CV is represented by a separate <section>:

```

39 <section id="skills">
40   <h3 style="color: green">Skills</h3>
41   <p>HTML, CSS, JavaScript, Accessibility, Figma to Design, Responsive Web Design, Technical Writing, P
42 </section>
43
44 <section id="education">
45   <h3 style="color: green">Education</h3>
46   <p>
47     <span style="color: blue; font-weight: bold;">International University - HCM National Universit
48     September 2023 to September 2029<br>
49     Ex-Member at IT Youth Union
50     Member of IU eSports Club
51     Member of Principle of Database Management Project Group
52     Member of Web Application Development Project Group
53   </p>
54 </section>
55
56 <section id="experience">
57   <h3 style="color: green">Experience</h3>
58   <p>
59     <span style="color: blue; font-weight: bold;">Riot Games, USA - Game Developer</span><br>
60     March 2024 to August 2025
61   </p>

```

And CV is in only ONE webpage:

- **SEO meta tags in the head section**
 - SEO (Search Engine Optimization) meta tags are elements in <head> section that provides search engines with information about the page
 - Is used to improve visibility in search engine results, which help people searching for the CV able to find it easier.
 - Used in almost all persona and business pages.

```

7      <!-- SEO meta tags -->
8      <title>Long Huynh</title>
9      <meta name="description" content="Curriculum Vitae of Long Huynh – Junior Frontend Developer." />
10     <meta name="keywords" content="CV, resume, frontend developer, HTML, CSS, JavaScript." />
11     <meta name="author" content="Long Huynh" />
12

```

- **OG tags for better social media sharing**

- Are metadata used to control how the page appears when shared on social media platforms.
- Is used to make the preview of the webpage look more informative when shared by showing a custom title, description and image.
- Used in the <head> section whenever the website is shared or linked on social media

```

13     <!-- Open Graph -->
14     <meta property="og:title" content="Your Name – Junior Frontend Developer" />
15     <meta property="og:description" content="Curriculum Vitae of Long Huynh." />
16     <meta property="og:type" content="profile" />
17     <!-- lightweight svg data URI used as the OG image placeholder -->
18     <meta property="og:image" content="data:image/svg+xml,%3Csvg xmlns='http://www.w3.org/2000/svg' width='120' height='120' viewBox='0 0 120 120'></svg>" />
19

```

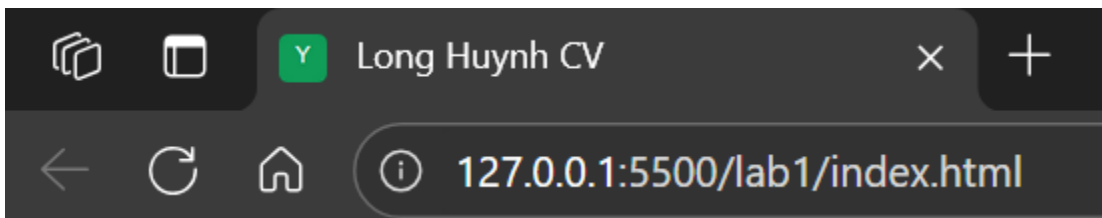

- **A favicon linked in the head section**

- Is the small icon that appears in the browser tab beside the webpage title
- It helps with branding and makes the site look more professional and recognizable
- Used in the <head> section of every websites (usually linking to an .ico, .png or .svg file)

```

20     <!-- Favicon -->
21     <link rel="icon" href="data:image/svg+xml,%3Csvg xmlns='http://www.w3.org/2000/svg' viewBox='0 0 100 100'></svg>" />

```

Final output of project:

Huynh Ngoc Bao Long

Junior Frontend Developer

59 Dang Van Tron Street Bien Hoa City, Dong Nai (+84) 886 194 957
ITITWE23023@student.hcmiu.edu.vn

Skills

HTML, CSS, JavaScript, Accessibility, Figma to Design, Responsive Web Design, Technical Writing, Presentation.

Education

International University - HCM National University, Ho Chi Minh City - Bachelor's Degree

September 2023 to September 2029

Ex-Member at IT Youth Union Member of IU eSports Club Member of Principle of Database Management Project Group Member of Web Application Development Project Group

Experience

Riot Games, USA - Game Developer

March 2024 to August 2025

- Designed and developed in-game characters
- Developed Replay System for Valorant
- Optimized and Applied QOL changes to Team-Fight-Tactics

Skills: Understanding in software development, Application on real-time recording in softwares, optimizations in softwares

CodeLab Studios, Remote - Junior Web Developer (Freelance)

January 2025 to Present

- Built and deployed a multi-page business website using HTML, CSS, and basic JavaScript animations.
- Worked with clients to customize layouts and implement SEO-friendly designs.
- Optimized web assets and reduced image load times by 30% through lazy loading.

Skills: Frontend Development, SEO, Responsive Design, Version Control
